

Detailed rules for awarding points in the admissions procedure in the discipline of physical sciences

Recommendations of the Council of the Doctoral School of Exact Sciences of 18 May 2021

1) Diploma grade (maximum 10 points):

- 5.0 – 10 points
- 4.5 – 8 points
- 4.0 – 6 points
- 3.5 – 5 points
- 3.0 – 4 points

2) Previous scientific activity (maximum 15 points):

- Scientific publications – 5-15 points
- Scientific grant leader – 5-15 points
- Participation in a research grant – 3-7 points
- Participation in conferences – 3-7 points
- Prizes and awards in competitions – 3-7 points
- Scientific internship – 3-7 points

3) Other documented activity (maximum 5 points):

- Science clubs, student self-government, organization of conferences, popularization of science, sports, cultural achievements, volunteering: each activity 0-3 points

4) Interview (maximum 50 points):

- Knowledge in the field of physics – 25 points
- Competence in the field of the planned research – 25 points

5) Evaluation of the research project (maximum 20 points):

- Purpose of the research – 0-6 points
- Novelty and originality – 0-6 points
- Methodology – 0-6 points
- Knowledge of the state of research with a basic bibliography – 0-6 points

After the interview and presentation of the project, the members of the selection panel secretly award points in each of the criteria. The final score is the arithmetic average of the points awarded by each team member.
