1. Program Outline

Program 1: Japanese Language and Culture Program

- The first and foremost aim of our program is to foster students’ language acquisition and ability to communicate with many types of Japanese speakers in a variety of interactive situations. Japanese speakers are invited to join the classes so that students can use their language skills they have acquired to communicate with them. Students are expected to work autonomously and manage their own study schedule. The coursework of the program includes class lessons, homework, project work, and daily quizzes whereby students’ Japanese language proficiency is expected to improve significantly through the program.

- Students who meet the Japanese language proficiency requirements may enroll in undergraduate courses taught in Japanese. A wide range of subjects is available, including linguistics, interpreting and translation, area studies, communication, business, and international relations. These courses are taken alongside regular students, primarily Japanese nationals.

- Students who meet the English language proficiency requirements may also take undergraduate courses taught in English, together with regular students, primarily Japanese nationals.

Program 2: Undergraduate Courses in English

-In this program, students take the English-taught courses from the faculty of Foreign Languages or the faculty of Global Liberal Arts. Students can choose courses such as the Japan studies, U.S., British, and Oceania studies or linguistics. Especially, KUIS is very rich in the Japan studies, and students can deepen the knowledge.

-There are not any requirements about the Japanese language, but, students who have never studied Japanese have to take the Japanese for Daily Living course (two class hours per a week) and students who have studied Japanese ever can take up to 2 elective courses of *Ryugakusei Bekka*.

[IMPORTANT] The Start of Pre-Entry Tuberculosis (TB) Screening

The Japanese government has launched a “Pre-Entry Tuberculosis (TB) Screening” policy. This system requires nationals of specific countries—the Philippines, Vietnam, Indonesia, Nepal, Myanmar, and China—who intend to stay in Japan for a mid- to long-term period, to submit a Certificate of TB-Free Status as proof that they do not have active tuberculosis. These countries were selected based on the high proportion of foreign-born TB patients diagnosed in Japan who are originally from these regions. (Note: The starting date of the requirement varies by nationality.)

The Certificate of TB-Free Status must be submitted at the time of applying for a Certificate of Eligibility (COE), which is required to obtain a visa for entering Japan. Please be advised that if an eligible individual fails to submit this certificate without a reasonable justification, the application for the COE will be denied.

(1) Who is Required to Submit the Certificate

- The screening requirement applies to individuals who:
- Hold the nationality of one of the following countries: **the Philippines, Vietnam, Indonesia, Nepal, Myanmar, or China**, and
- Plan to enter and reside in Japan as a mid- to long-term resident.

※Please note that for Indonesia, Myanmar, and China, the starting dates for enforcement have not yet been determined.

(2) Implementation Schedule

Effective Dates for Mandatory Submission of the Certificate of TB-Free Status:

- Philippines and Nepal: For COE applications submitted on or after June 23, 2025
- Vietnam: For COE applications submitted on or after September 1, 2025

※The enforcement dates for Indonesia, Myanmar, and China are still undecided and will be announced by the Ministry of Health, Labour and Welfare as soon as confirmed.

(3) About the Certificate of TB-Free Status

If your COE application is submitted on or after the effective dates mentioned above, you are required to submit a Certificate of TB-Free Status.

This certificate must be issued by a designated medical institution authorized by the Government of Japan in the

respective country.

The certificate is valid for 180 days from the date of the chest X-ray examination.

※For details on the screening procedures and designated medical institutions, please refer to the official website for the Pre-Entry TB Screening below:

https://www.mhlw.go.jp/stf/newpage_39881.html

(4) How to Submit

Since Kanda University of International Studies will apply for your Certificate of Eligibility (COE) on your behalf, please send a copy or scanned data of your Certificate of TB-Free Status to the university by email:

international@kanda.kuis.ac.jp

Those who are accepted for admission and are subject to this screening requirement will be contacted individually by the university.

(5) Important Notes

- Applicants from the designated countries are required to undergo screening and obtain a Certificate of Non-Active Tuberculosis by the application deadline.
- You are responsible for any costs associated with the screening.
- The time and cost required to complete the examination and receive the certificate may vary depending on the medical institution. Please consult the institution directly.
- The certificate is valid for 180 days from the date of the chest X-ray examination.
- Please retain the original copy of the certificate for your own records until its expiration, as you may be asked to present it after entering Japan.
- Kanda University of International Studies is closely monitoring policy updates and may issue additional notifications to relevant individuals as needed.
