“ Dear organizers of the Summer School "Social Responsibility of the University", Dembina Palace, November 5-11, 2023.

I want to express my impressions of this event.

1. I believe that nowadays, during the war in Ukraine, this is very important from the psychological, social and professional aspects.  
2. The summer school provided interesting knowledge and practical examples of ways to improve the social development of our institution of higher education.

3. Interesting meetings with colleagues from Adam Mickiewicz University were organized. We will remember the meetings regarding the international rankings of universities; the career office; project activity; organization of studies and life of students with inclusion; and the presentation of Adam Mickiewicz University.

4. The tour of the Adam Mickiewicz University campuses was impressive - it was very interesting and useful.

5. Communicating with each other, and sharing experience, practical skills and knowledge was of great importance to my colleagues from Ukraine.

6. Special thanks for the opportunity to spend 5 days in an English-speaking environment, as the lectures were held in English.

7. The excursion to the city of Poznan was interesting.

I am thankful to Kostyantyn Mazur and the team, who helped us in this difficult time to gain new knowledge, interesting skills, positive emotions, and moral and psychological strength for further fruitful work in Ukraine, to inspire young people to study and develop and thereby bring Ukraine's victory closer.”

I highly appreciate the opportunity to participate in the work of the International Summer School "Social Responsibility of the University" within the project "UNIwersytet Jutra II - POWR.03.05.00-00-Z303/18", November 5 - 11, 2023.

Thank you for the perfect organization of studying at the Summer School, as well as the stay at Dębina Palace.

Thanks to the experience gained, and the contacts established with representatives of Adam Mickiewicz University and Ukrainian universities, I formulated the following proposals for the administration of Igor Sikorsky Kyiv Polytechnic University:

- Taking into account the experience of Adam Mickiewicz University, Lviv Polytechnic National University and Kyiv-Mohyla Academy National University in supporting people with disabilities, in particular, combat participants actions, who, defending Ukraine, lost their health and received the first or second group of invalidity, to analyze the possibility of carrying out similar activities in the Ihor Sikorsky Kyiv Polytechnic University. Accordingly, direct efforts to the preparation of project applications for financing such activity.

- To consider the possibility of establishing academic exchanges between the Department of Psychology and Pedagogy of the Igor Sikorsky KPI and the Faculty of Psychology and Cognitive Sciences of Adam Mickiewicz University.

I hope that the administration of our university will analyze the above proposals and that the cooperation between our universities will receive further development."

“My internship at the Summer School "Social Responsibility of the University" at the Adam Mickiewicz University, Poznan. I had an incredible opportunity to get acquainted with the concept of social responsibility at the university, where social activities are not "additional" but an integral part of the university's mission, where social responsibility is not just a slogan, but a model in which they use their capabilities and obligations to achieve the Sustainable Development Goals.

Thank you to Uniwersytet im. Adama Mickiewicza w Poznaniu for such a great opportunity to participate in the Summer School "Social Responsibility of the University".

I would also like to express my gratitude to you, Kostia Mazur, for your coordination work, organising interesting meetings with unique lecturers and providing tireless answers to all our questions))

Such projects are essential and useful because they provide an opportunity to exchange experiences, establish communication, generate new ideas and implement them at their universities using the experience gained))”
