6th Kiel Days in Poznań

November 13–15, 2024

Dear Ladies and Gentlemen,

Dear guests of the 6th Kiel Days in Poznań,

I am very pleased that Kiel University was invited this year with a large delegation as guests of Adam Mickiewicz University and that we are celebrating together with our colleagues from Poznań the "6th Kiel Days in Poznan".

The year 2024 also marks the 40th anniversary of the signing of the partnership agreement between Kiel University and Adam Mickiewicz University. However, the contacts and exchange activities between our two universities are much older and in some cases they date back to the beginning of the 1970s. Hence, we can look back on more than 50 years of joint academic cooperation, a really long period!

The joint University Days, which combine science with culture and society as well as personal contacts and take place every two years alternately in Poznań and Kiel, are intended to make the cooperation between our universities even closer and more intensive. One focus is always to bring young people together: undergraduates, graduates and doctoral students from both universities. This year we will have several joint workshops and lectures, including in the fields of German language and literature, archaeology, Polish language and literature, history, urban geography, computer science, law and materials sciences.

We wish you and us an interesting program with many talks and discussions and a fruitful exchange of ideas and opinions for the workshops and seminars taking place. We would like to cordially invite you to visit the wide variety of events on offer!

Prof. Dr. Ralph Schneider

Vice President, Kiel University

Wednesday, November 13th, 2024
