

Scientific discipline:**Sociology**

DIPLOMA GRADE	
In this category the candidate may receive maximum 3 points In the absence of a diploma grade, the average grade from the course of study is taken into account.	
“very good” or equivalent grade	3 points
“good plus” or equivalent grade	2 points
“good” or equivalent grade	1 point
applicants seeking admission on the basis of the highest quality scientific achievements (e.g. leading a project under the “Pearls of Science” programme)	3 points

SCIENTIFIC ACHIEVEMENTS		
The candidate shall indicate a maximum of 3 documented scientific achievements for evaluation. They may receive no more than 22 points in total.		
Scientific publications¹⁵		
N.1	Scientific article published in a scientific journal having 70-100 points according to the list of scientific journals	10 points
N.2	Scientific article published in a scientific journal having 40 points according to the list of scientific journals	6 points
N.3	Scientific article published in a scientific journal having 20 points according to the list of scientific journals	4 points
N.4	Scientific article published in a scientific journal from outside the list of scientific journals	2 points
Participation in research grants¹⁶		
N.5	Implementation of own grant / research project financed from	5 points

¹⁵ A scientific publication includes a scientific article, a scientific monograph, or a chapter in a scientific monograph. A scientific article is a peer-reviewed piece published in a scientific journal or in the peer-reviewed proceedings of an international scientific conference. It presents a specific scientific issue in an original and creative, problem-oriented, or interdisciplinary manner, and includes appropriate annotations such as footnotes, bibliography, or other scientific apparatus relevant to the discipline.

A scientific article may also be a review article published in a journal listed in the ministerial list of scientific journals.

The following are not considered scientific articles: editorials, abstracts, extended abstracts, letters, errata, and editorial notes. A scientific monograph is a peer-reviewed book publication that presents a specific scientific issue in an original and creative manner, complete with footnotes, bibliography, or other scientific apparatus appropriate to the discipline.

A scientific monograph also includes peer-reviewed works such as annotated or bibliographed translations of significant scientific or cultural works into Polish or another modern language, or scientific editions of source texts (Source: PBN).

¹⁶ Please indicate sources of funding for research grants.

	external funds (e.g. Diamond Grant, Pearls of Science, grants from NCN [National Science Centre])	
N.6	Implementation of own grant / research project financed from university funds (e.g. ID-UB)	4 points
N.7	Co-researcher/contributor in a grant (named member of the grant team)	3 points
N.8	Co-researcher/contributor in a grant (researcher/contributor without indicating membership in the grant team)	2 points
Participation in scientific conferences (participation with a paper presented)¹⁷		
N.9	Participation in an international scientific conference	5 points
N.10	Participation in a national scientific conference	3 points
N.11	Participation in a local scientific conference	2 points

OTHER ACTIVITIES OF THE CANDIDATE

The candidate shall indicate a maximum of 3 documented achievements for evaluation. They may receive no more than 5 points in total.

I.1	Activities related to the profile of scientific and research interests (e.g., activities in scientific circles, scientific associations)	2 points
I.2	Activities for the popularization of scientific knowledge (e.g., participation in the organization of conferences, active participation in seminars, scientific debates)	2 points
I.3	Activity in organizations and institutions working for social good (e.g., in non-governmental organizations, volunteer work in public use organizations)	1 point

RESEARCH PROJECT

The candidate may receive a maximum of 20 points

Ability to formulate the research objective and present the research problem	0 – 6 points
Originality of the research idea and selection of appropriate problem-solving methods	0 – 5 points
Methodology appropriate to the chosen discipline	0 – 4 points
Knowledge of existing research, supported by a basic bibliography	0 – 2 points
Significance of the project for the development of the chosen discipline	0 – 2 points
Risk analysis of research tasks	0 – 1 points

¹⁷ Please indicate the scope of the conference: local, national, international.

INTERVIEW

The interview may last up to 30 minutes

The candidate may receive a maximum of 50 points

Knowledge and competencies appropriate to the chosen discipline

0 – 25 points

Elements of research methodology appropriate to the chosen discipline

0 – 25 points
