Shimadzu-LPU Centre for Advanced Chromatography and Mass Spectrometry

# INTERNATIONALIZATION EFFORTS

Strong focus on building international partnership for research and teaching

Have established tie-ups with more than 200 universities across the globe

Efforts to make partnership active through frequent dialogues and communication

In the last 2 years we have made almost 68% of the new partnerships active

Major break through in increasing staff and student mobility in USA

University has now become active in Europe too and has won two Erasmus funded project within first year

Have already been working with universities like McGill and Guelph in Canada and have 500,000 C\$ on work under IC-Impact projects

In Australia there is an impetus to grow mobility opportunity and exploring joint research bids

Created unique incredible India program for the partner universities

Won consultancy project in Mongolia and Rwanda worth 10 million USD
